PROFESSIONAL SUMMARY

Motivated IT and Software Development enthusiast with practical experience in CCTV surveillance, technical support, and IT operations. Experienced in CCTV installation, monitoring, footage retrieval, troubleshooting, and incident reporting, with hands-on exposure to Cathexis CCTV systems, IP cameras, and network cabling. Strong foundation in technical troubleshooting, software development. A fast learner with strong problem-solving and communication skills, committed to providing reliable technical support and contributing effectively within a professional team environment.

TECHNICAL SKILLS

- **Programming**: Python, JavaScript, C++, SQL,OOP principles, Agile methodologies
- **CCTV**: Installation & Configuration,Monitoring & Footage Analysis , Troubleshooting & Maintenance
- **Backend**: Node.js, Express.js, REST APIs, JSON Tokenization,JWT Authentication, API authentication
- **Databases & Data**: MySQL, SQLite Server, Database Design, Basic Database Encryption, Secure Data Storage, Access Control
- AI/ML (Foundational): NLP, Computer Vision, Neural Networks, Responsible AI, Feature Engineering, Data preprocessing
- **Tech support:** Hardware & Peripheral Troubleshooting (desktops, laptops, printers),BIOS & Firmware Management, Software Installation & Configuration, System Upgrades& Patch Management, Data Backup & Recovery Procedures

TOOLS AND PLATFORMS

- Microsoft Azure (Azure Cloud Services exposure)
- Cathexis CCTV , CCTV Recording & Monitoring Systems , IP/Network Cameras, Ethernet/Network Cabling
- Supabase database(AWS), MySQL Workbench
- Google Auth Client 2.0, Google Calendar Automation
- Helpdesk & Ticketing Systems (BMC Helix)

CORE COMPETENCIES

- Team Collaboration
- Communication Skills
- Adaptability
- Presentation skills
- Teamwork and independent work

EDUCATION

National Diploma in Information Technology (Software Development) -
Tshwane University of Technology (2024)

CERTIFICATIONS & TRAINING

- Udemy: SDLC,Fundamentals of Software Design and Architecture, Software Testing, Elicit Requirements with Business Analysis
- Microsoft: Azure AI Fundamentals, Azure AI Engineer Associate,
- IBM : Machine Learning with Python

EXPERIENCE

- **Ngkwete IT Solutions (July 2025 - Dec 2025)**

Technical Support Engineer Intern

- System updates (BIOS & Firmware)
- Remote machine troubleshooting
- Proxy /VPN/ Internet configuration
- System deployment and installation
- Reimage machine for Windows updates

- **Empumelelweni CHC (Department of Health)**

CCTV Surveillance

- Assisted with CCTV camera installation, positioning, and configuration.
- Monitored live and recorded footage using Cathexis CCTV systems.
- Performed basic CCTV troubleshooting and maintenance on cameras and recording equipment.
